

# Dutch Sustainability Research

Dutch Sustainability Research (DSR) is a leading independent sustainability research provider to the financial sector in Europe, serving a large group of institutional investors. DSR conducts research on the Environmental, Social and Governance (ESG) performance of companies in close cooperation with research partners. DSR offers investors access to high-quality information and ratings on more than 7.000 companies, institutions and countries worldwide. Clients of DSR include large European pension funds, several of the worlds' largest financial institutions as well as many smaller players in the financial services industry.

Responsible Investors use Environmental, Social and Governance (ESG) information in their investment decision-making process. DSR offers services that provide clients access to such research. This enables investors to implement their Responsible Investment strategies, which can vary from the integration of ESG criteria, to best-in-class approaches, to engagement and/or to the adoption of exclusionary criteria.

Applications will be treated in confidence and should be forwarded to [info@dsresearch.nl](mailto:info@dsresearch.nl). Further information about the position may be obtained from Ms. Esther Hougee, telephone + 31 (0) 30 694 2300. *No agencies please.*
